

MATRIX
LEADING INNOVATION

**Key cabinet &
Guns storage systems**

When you have so many valuable objects such as keys, guns, radios and others, controlling who can take what and hold them accountable become a burden task.

MATRIX are a premium assets management systems which allow you to secure all your valuable objects and then manage the access of individuals according to personal authorization.

MATRIX provides the highest level of security to your assets as each item is secured in a sealed compartment and every transaction is automatically registered and even captured by a dedicated video camera.

Our MATRIX ULTRA is world largest capacity unit allowing you to secure and manage hundreds of keys, guns, radios, handcuffs etc. all in one smart cabinet.

Forget everything you
thought you know
about CONTROL and
discover the **MATRIX**

Simple

1 Identify
Biometric / RFID Tag Pin
code

2 Select item
According to personal
authorizations

3 Receive access
To the requested item
only

Secured

The MATRIX is a heavy duty cabinet made from steel with locked drawers. Unlike other systems, where anyone who opens the front door can take any stored item, MATRIX protects each object in a separate locked compartment with no ability to access without manager permissions

Video Records

For an even higher level of security, a dedicated camera can be added to capture every transaction. Using cross-cutting reports, now you can also have visual of every activity made.

A man in a white shirt and blue tie is sitting at a desk, looking at a computer monitor. The word "Control" is written in white text in the top right corner of the image.

Control

The MATRIX has a power software with many unique features that provide you better control along with the security level you need.

- **Limit system access to working hours only**
- **Limit the number of items that a user can hold at the same time**
- **Require users to report check out reason**
- **Determine due date of each item**
- **Send alerts when item wasn't returned on time (user + manager)**
- **Document every transaction by video camera**
- **Send alerts when a drawer was forced open and start the camera**
- **Control from a remote location**

Self deposit stations

The MATRIX can also work with the “MyBox” application and use as a self deposit systems for personal belonging such as phones, keys, wallets, laptops and others.

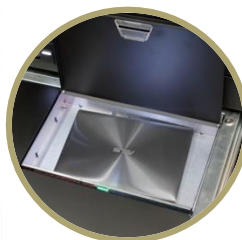

The MATRIX system is the first choice for prisons, military, embassies and other secured facilities who wishes to allow random visitors or selected users to self-deposit private objects in a secured, efficient and easy way.
