

MATRIX
LEADING INNOVATION

A new generation of
smart lockers

MATRIX ULTRA

"MATRIX give us peace of mind as we do not need to handle, maintain and be responsible for guest's personal belongings"

RAFAEL 
SMART AND TO THE POINT

OVERVIEW

MATRIX is an advanced self-deposit system for personal belonging such as phones, guns, wallets, laptops and others.

Where ever you wish to allow random visitors or selected users to self-deposit private objects with the most secure and advance system - MATRIX will be your best choice!

HOW DOES IT WORK

1

IDENTIFICATION

The drawers are locked.
Each user will need to identify
either by biometric or proximity
tags

2

ASSIGNING PRIVATE COMPARTMENT

The system will open and assign
one of the empty compartments.
The specific compartment will
reopen only by the same user

Video Records

For an even higher level of security, a dedicated
camera can be added to capture every transaction

Cell Phones Locker

Looking for more efficient way to secure cell phones?

MATRIX FRAME, a wall mounted unit with a slim design is the most advanced automated locker for mobile phones.

No more using mechanical keys, no more every locker attributed to a specific user even when he's not using it...

With MATRIX the deposit is made easily using biometric or proximity tags and every compartment which is not in use is available for others.

MATRIX provides the highest level of security as each operation is recorded by the dedicated video camera viewable with a click of a button.

Fits your needs

Design your own drawers by selecting any combination of 19 bins sizes to utilize capacity.

From a key size compartment to laptop size – everything is possible!

The control you want
with the
security you need!

Video log

- Set the system for random users or listed only
- Define maximum storage duration
- View video records of every operation made
- Open any compartment using administrator mode
- Manual override using special key

Why MATRIX

A group of five young adults (three men and two women) are standing behind a large white rectangular sign. They are all smiling and looking towards the camera. The sign is held up by their hands and contains five lines of orange text. The background is a solid orange color at the top and white below.

You have more members than lockers

The majority wishes to secure their wallets, phones and keys

MATRIX offers hundreds compartments in small space

Maximum security for the stored objects

After checking out, the compartment is free for others
