

**MATRIX**  
LEADING INNOVATION

**Control your keys**

**Protect your properties**

*We choose MATRIX since other than control it provides the highest level of security to our keys and assets. In addition, it has massive capacity to contain all our keys in only one cabinet - with any other systems we would have needed at least 3 units. The MATRIX is truly the best key management system I've seen*

**Jonathan Eltes**  
**Dealer Principle**  
**Mercedes-Benz Brampton**

Receiving responsibility over someone else property is a serious thing – controlling who has access to each property key is daily task which often requires implementation of smart key cabinets.

But when it comes to key cabinets, controlling your keys is important but protecting them is crucial. MATRIX provides the highest level of security to your assets as each key is secured in a sealed compartment and every transaction is captured by a dedicated video camera.

MATRIX are a premium key management systems which allows full control of your keys and assets.

With our systems, controlling your keys has never been easier - you will be able to decide who has access to each key and receive real-time data regarding who took what, when and for which purpose.

MATRIX ULTRA is world largest capacity unit allowing you to secure and manage up to 1,780 keys in one elegant cabinet instead of 10-15 cabinets with competitor's.

**Forget everything you thought you know about  
key cabinets and discover the MATRIX**

# Simple

**1 Identify**  
Biometric / RFID Tag Pin code

**2 Select a key**  
According to personal authorizations

**3 Receive access**  
To the requested key only

# Secured

The MATRIX is a heavy duty cabinet made from steel with locked drawers. Unlike other systems, where anyone who opens the front door can steal or duplicate any key in the cabinet, MATRIX protects each key in a separate locked compartment with no ability to access without manager permissions

**You can't duplicate and steal what you can't see and touch**

## Video Records

For an even higher level of security, a dedicated camera can be added to capture every transaction

Using cross-cutting reports, now you can also have visual of every activity made

MATRIX ULTRA

Up to **1,782 keys**

MATRIX ULTRA is the largest capacity unit in the market allows you to store all your keys in a single cabinet and save valuable space

A man in a white shirt and blue tie is sitting at a desk, looking at a computer monitor. The background shows office shelves with binders.

# Control

The MATRIX has a power software with many unique features that provide you better control along with the security level you need.

**Limit system access to working hours only**

**Limit the number of keys that a user can hold at the same time**

**Require users to report check out reason**

**Send the owner email notification when their property key has checked out (who took, when and for what purpose)**

**Determine due date of each key**

**Send alerts when a key wasn't returned on time (user + manager)**

**Document every transaction by video camera**

**Send alerts when a drawer was forced open and start the camera**

**Control from a remote location**

# Models

INDUSTRY BIGGEST
